TECTONOPHYSICS

CONTENTS

Tectonophysics Volume 231

Special Issue: Terranes of the Arctic Caledonides, edited by P.G. Andréasson and A. Andresen

Preface vii

The Baltoscandian Margin in Neoproterozoic–early Palaeozoic times. Some constraints on terrane derivation and accretion in the Arctic Scandinavian Caledonides
P.G. Andréasson 1

Tectonic significance of the meta-evaporitic magnesite and scapolite deposits in the Seve Nappes, Sarek Mts., Swedish Caledonides
O.M. Svenningsen 33

Palaeomagnetism of Vendian–Early Cambrian sedimentary rocks from E Finnmark, Norway
G. Bylund 45

Evidence for ophiolite obduction, terrane accretion and polyorogenic evolution of the north Scandinavian Caledonides
A. Andresen and M.G. Steltenpohl 59

Stratigraphy, tectonostratigraphy and the accretion of outboard terranes in the Caledonides of Sunnhordland, W. Norway
T.B. Andersen and A. Andresen 71

Contact relationships in the southeastern Trondheim Nappe Complex, central-southern Norway: implications for early Paleozoic tectonism in the Scandinavian Caledonides
E.A. McClellan 85

Is the West Karmøy Complex igneous or metasedimentary?
J. Rodgers 113

Structural observations adjacent to a large-scale extensional detachment zone in the hinterland of the Norwegian Caledonides
E. Hartz, A. Andresen and T.B. Andersen 123

Late Caledonian extension in the Scandinavian Caledonides—the Røragen Detachment revisited
D.G. Gee, M. Lobkowicz and S. Singh 139

Late Caledonian extension in the Ofoten area, northern Norway
E. Rykkelid and A. Andresen 157

Early Proterozoic basement in Ny Friesland—implications for the Caledonian tectonics of Svalbard
D.G. Gee, L. Björklund and L.-K. Stølen 171

Caledonian and Precambrian history in Svalbard: a review, and an implication of escape tectonics
Y. Ohta 183

Tectonothermal evolution of the Badajoz–Cordóba shear zone (SW Iberia): characteristics and $^{40}Ar/^{39}Ar$ mineral age constraints
C. Quesada and R.D. Dallmeyer 195

Publisher's note I

Research Papers

Gravity modelling of the lithosphere in the Eastern Alpine–Western Carpathian–Pannonian Basin region
R.J. Lillie, M. Bielik, V. Babuška and J. Plomerová 215

Paleomagnetic considerations of the development of the Pennsylvania salient in the central Appalachians
J. Stamatakos and A.M. Hirt 237
Palaeomagnetism of the (Early Devonian) Lower Old Red Sandstones of South Wales: implications to Variscan overprinting and differential regional rotations
D. Setiabudidaya, J.D.A. Piper and J. Shaw 257
Aegean paleomagnetic inclination anomalies. Is there a tectonic explanation?
M.E. Beck Jr. and E.R. Schermer 281
Is water responsible for geophysical anomalies in the deep continental crust? A petrological perspective
B.R. Frost and K. Bucher 293
Focal mechanism solutions for Albanian earthquakes for the years 1964–1988
B. Muço 311
Sedimentation pattern and tectonic evolution of the Proterozoic Singhbhum Basin in the eastern Indian shield
M.K. Bose 325

Book Review
Structural Geology: Fundamentals and Modern Developments, by S.K. Ghosh — T. Engelder 347
